

MARCH FOR LIFE IN HELSINKI

11.9.21

What?

We are organising a march for life in Helsinki on 11th September. Through the march our aim is to raise the social debate on the painful issue of abortion. A reality that affects so many Finns and yet is rarely discussed. We want to defend life from conception and be a reminder that every human life is a unique gift. Together we can make the future brighter!

Why?

In Finland, 25 fetuses die every day from abortion. They are helpless, dependent and innocent. Recently, the EU Parliament voted for a process to declare abortion as a human right. Also in Finland the abortion law is being relaxed. The need to defend unborn children is greater than ever!

When?

We will gather at the Senate Square on Saturday 11th September at 13:00. The march begins by walking via Aleksanterinkatu and Mannerheimintie to the Parliament House, where Päivi Räsänen, Member of Parliament, will give a speech. There will also be musical performances. The event is expected to end at the latest 16.00.

Invitation:

Everyone who wants to defend human life in the womb is welcome to the march. Those who wish to come can bring pro-life posters and banners. No other symbols may be worn at the march.
